SCHLEYEPLIES TO HACKETT.

HE DENS THAT HE INTENDED TO (ALLENGE HOWISON,

But Mere Desired to Obtain From Howison Denial or Affirmation of the Sentents Attributed to Him - Schley nsultation With His Counsel.

WASHITON, Aug. 22.-Rear Admiral Schley might addressed a letter to acting creta of the Navy Hackett in reply to Mr Haett's letter of yesterday. In this letter jeays that in no sense of the term could a original communication be regardesas "a preliminary challenge" of Rear imiral Howison's fitness to serve on t court of inquiry. Rear Admiral Schleassumes in his letter that Mr. Hackett's rm. "preliminary challenge," means a pliminary to a challenge," and denies thase had any intention of taking such neti. He holds that there is properly no suc term as "a preliminary challenge." Have that in no sense could his original er be regarded as challenging Howison's first to serve on the court-although sid fitness might be challenged later in d form after the court meets-but was deshed to elicit from Rear Admiral Howtson enial or affirmation, so that if he should he had expressed the sentiments ascribed him and assumed the responsibility them he might withdraw before the

lt was said to-night that Rear Admiral chley had also pointed out in his letter rhich is not yet made public that Rear tdmiral Howison had not disclaimed the riews attributed to him, for his general denial of having publicly expressed opinions was made prior to the publication in question. It was also said that the letter declares that Mr. Hackett misun derstood Capt. James Parker's reference to his Boston trip and that Capt. Parker had no intention of giving him the impression that he wished action in the Howison matter postponed until his return. The matter postponed until his return. The letter to Mr. Hackett does not contain a request that Mr. Hackett take other action

letter to Mr. Hackett does not contain a request that Mr. Hackett take other action than that of yesterday and grant the original request that the letter be forwarded to Admiral Howison, but it is so phrased as to leave this course open to Mr. Hackett should he desire to take it.

Isadore Rayner came to Washington to-day to hold a conference with Rear Admiral Schley, Mr. J. M. Wilson and Capt. Parker, the other counsel for Rear Admiral Schley, Mr. Hayner brought with him a typewritten synopsis of the case, containing over 100 pages of matter and covering the entire period in question, with the exception of the battle of July 3, 1898, which will be prepared later. The entire day was spent in the discussion of this abstract. Rear Admiral Schley and his counsel called on acting Secretary Hackett, but declined to say for what purpose. They said, however, that the Howison letter was not mentioned. Capt. Parker left for his home at Perth Amboy, N. J., this afternoon, and Judge Wilson went to Boston on personal business.

NEW GERMAN TARIFF LAW. Double Rates on Bicycles and Shoes

Wont Stop High-Class Trade.

ASHINGTON, Aug. 22. - The proposed new tariff law in Germany will make a notable advance in duties on many articles. Consul-General Frank H. Mason writes from

"In respect to American manufactures, the most notable advances made by the present bill are in the rates on shoes and bicycles, and these have been granted in deference to loud, long and impassioned appeals from American competition. The increase of the import duty on bicycles and finished parts thereof to \$35.70 per 100 kilograms ili mean that an American bicycle, weighbg approximately 22 pounds (10 kilograms), will pay \$3.57 import duty, instead of about \$1.25 as heretofore. This will exclude cheap, low-grade wheels, but not good ones. Shoes which now pay from 19 to 15 nts per pair, according to weight, will, under the new schedule, pay approximately double those rates; but no one will expect hat the now firmly established and growing American shoe trade in German destroyed or seriously impaired by an im-

PROVINCE OF PANGASINAN.

Local Government Organized in an Im portant Part of Northern Luzon WASHINGTON, Aug. 22.-From informa-

tion received by the Division of Insular Affairs of the War Department the following abstract has been prepared concerning the Province of Pangasinan: The province is one of the political juris-

dictions recently created by the Philippine Commission under authority from President and what is known as "the Provincial Organization act." The province geographically occupies about the centre of the China sea coast of northern Luzon, its capital, Lingayen, being 112 miles northeast of Manila, on the gulf of the same name. In area the province is 1,316 square miles, or a trifle larger than the State of Rhode Island. It is traversed with fine roads, which not only bring the towns and roads, which not only bring the towns and villages in convenient intercourse, but also afford road communication with all the adjoining provinces. The Manila and Dagupan Railroad traverses the province. There is a population of 302,178, the greater portion belonging to the Pangasinan race. There are twenty-nine towns of more or less importance, and villages numbering 364. Lingayen, the capital and a telegraph and military station, is well built and has a population of 14,120.

and a telegraph and military station, is well built and has a population of 14,120. The staple products are rye, sugar came, corn, tobacco and cocoanuis. Coffee, chocolate and indigo are raised to a small extent, although the soil and climate are well adapted to their special cultivation. The province receives it name from the large deposits of common salt which is found within its limits, the word Pangasinan meaning a place where salt is made. The land traffic and much of the mercantile business is controlled by the Chinese. The province has been completely pacified. province has been completely pacified. The inhabitants are rapidly adapting themselves to their new opportunities of local government and industrial activity.

ENOUGH TEACHERS IN MANILA. The Work of Selecting Americans for the Service Practically Completed.

WASHINGTON, Aug. 22. The arrival at Manila of the 500 school teachers who sailed on the transport Thomas practically marks the completion of the work of selecting American teachers for service in the Philip-American teachers for service in the Philippines. The great flood of inquiries and applications continues, and the writers are informed that Prof. Atkins, the general superintendent of public instruction at Manila, has cabled that no more appointments will be made. The annual report of that official, dated May 27, shows that of the 1,000 teachers desired, 781 had then been appointed, either absolutely or proof the 1,000 teachers desired, 781 had then been appointed, either absolutely or provisionally, since which time other appointments have been made, thus completing the quota. The colleges through whom the provisional appointments were made cooperated with the insular authorities in endeavoring to secure only the most desirable teachers for service in the islands, but the time limit within which this work but the time limit within which this work had to be done is at hand. Hereafter the few teachers that may be needed from time to time will be appointed direct from

WASHINGTON, Aug. 22. Tegeler, the coal passer of the navy, tried for disobeying the orders of the District of Columbia Naval Militia commander, under whom Tegeler Militia commander, under whom Tegeler was serving, has been released from confinement pending the action of the civil court to which Tegeler has appealed. The coal passer had been assigned to duty as a ship's keeper with the Naval Militia command and refused to clean brass work and swab the deck. He was court-martialed and received a sentence of confinement and loss of pay. As his appeal could not be acted on for some time, the Navy Department has decided to virtually suspend sentence. pend sentence.

WILL NOMINATE C. U. TICKET.

SO SAYS ONE OF THE REPUBLI-CAN CONFEREES.

Republicans Wont Ask for a Place if It Would Disturb the Harmony to Do So-Conference at Platt's Office on Halpin Resolution—Gibbs Explains.

According to the men who were in a little conference that was held yesterday morning in the office of Senator Thomas C Platt at 49 Broadway, President Morris of the Republican County Committee was to have issued last evening a statement which was planned to clear up all of the mystery that surrounds the resolution offered for adoption to the Republican City Committee at its meeting on Wednesevening by the Executive Committee, and then at the request of its introducer, William Halpin, referred to the Executive Committee with power

The resolution, which proposed to substitute for the Republican Anti-Tammany Conference Committee a larger committee o be appointed by Chairman Ten Eyek of the City Executive Committee, was denounced on all sides and there has been a lot of talk about its origin. It was "put up to" National Committeeman Frederick S. Gibbs on Friday by Senator Plati; then Mr. Gibbs said that he was not any more responsible for it than any one else, and that President Morris knew all about the matter all the time. The statement referred to was prepared in President Morris's law office yesterday, but he made up his mind that he would not issue it after all In the morning Senator Platt had Mr. Morris, Mr. Gibbs, Chairman Ten Eyek of the City Executive Committee, and Mr. Habin at his office and they had a long talk. After the talk it was said that the whole story of the resolution was as

follows:
Some weeks ago it was pointed out to the members of the conference committee that they as a number of Republicans were representing all of the divisions of the party in this city but that their credentials did not make them the representatives of the city organization, to which ives of the city organization, to which he formal work of calling the conventions that were to ratify the arrangements they made with the other anti-Tammany bodies was to fall. According to Mr. Gibbs the same question arose in 1897, and at that time it was solved by having the conferees that had been representing the several Republican county organizations constituted into the conference committee of the city organization. Senator Gibbs said that this was recalled and that it was thought that the best thing that could be thought that the best thing that could be done was to have representatives of the county committees appointed by committee as the representatives of the city committee so that there would be no doubt as to their right to speak in matters affect-

This plan, according to Senator Gibbs, was talked of weeks ago and was well known to President Morris and to all of the other men who are interested in the management of the city campaign. Whoever drew the resolution, it did not originally reliable to the city of the city campaign. include the present conferees specifically and it proposed to add indefinitely to the numbers of the committee. It is still in the hands of the City Executive Committee with power, but what is predicted now is that the County Conference committees will merely be consolidated into a City

"All the talk that there was any attempt of discredit or to cut down the authority of the members of the present conference committees is false," said Mr. Gibbs yesterday. "So is the talk that there was to have been an effort to gain the control of the conference in numbers so that if anything arose that had to be settled by a vote there would be a Republican majority. We know what can be done in a conference and it is as well to have the Republican party represented by one man as by one hundred or one thousand. Any party to the original conference was at liberty to send as big a delegation as it thought to send as big a delegation as it thought best, and we sent seven men. They can do as it took as seven hundred, for there is no quest on that will be settled by a vote. The conference will settle nothing sav-recommendations to be made to the conven-

"And I can say that the Republicans in that conference and in the party are going to do all that they can to bring about har-mony. They are not asking for anything and they are willing to accept anything that the other members of the conference see fit to agree on. And the members of the Republican City Convention, although they are not yet elected, are going to second the efforts of the men who are in the con-ference. I make that as a prediction, for I know what the temper of the party is, and that is what controls the conventions stated by another man that Presiresolution in advance and that it had his support at least. Some say that he saw a draft and made two corrections in it. Said a member of the Republican Conference

"The Republican Convention will nominate the Citizens' Union ticket. We are for harmony, and we will not ask for a place fit will raise a row for us to do so. That s all there is to il. Morris ought to have ntroduced this resolution himself. I thought that he was going to. So did the others. If he had there would have been no trouble."

2,700 COLONISTS IN THE SECOND. 1.600, It Is Said, Want to Vote for Foley

Chairman Voorhis of the Board of Elecions said yesterday that the managers of the Foley and Divver campaigns for the leadership of the Second Assembly district had filed lists of more than 2,700 names of voters who wanted to take part in the primaries on Sept. 17. Most of these, Mr. Voorhis said, were men who have transferred their voting residences from other tricts to the Second Assembly. eclared that they had not enrolled for the rimuries last y car and wanted to be in he fight this time and a few were boys the said they were too young last year, ut have reached the voting age this year. but have reached the voting age this year.

Me V-orbis was able to give only approximate figures because he said the number had not been counted up. It was estimated however, that of 2.799 notices filed 1.900 had been sent in by the Foley faction and 1.100 by the Divverites. The notices had been sent in motores by the managers of the respective campaigns, Mr. Voorbis sant. Time was up last Saturday. The primaries will be held on Sept. 17.

I nder the new primary law it is permissible for a voter to transfer his voting residence from one district to another and take part in the primaries of that district. There is time enough between the primaries and election day to move back to the old districts to vote at the November elections. The practice of changing a voting residence from one district to another ng residence from one district a vote at the party primaries is called "legal solonizing" by the politicians. The Bourn of Election's inspectors are making an examination of the lists that have been filled. A copy of the enrollment lists will be furnished to both Livver and

WILL FIGHT SHY OF SILVER. Massachusetts Democrats to Try a New

Policy No Early Convention. BOSTON Aug. 22. The Demogratic State Committee held its first meeting of the year at the party headquarters in the decision was reached relative to calling the State Convention, except that it was agreed that it should be held in Boston. No sentiment developed in favor of the adoption of Gamaliel Bradford's suggestion, that the convention be held early in September in order to permit a longer campaign than usual, and it is probable that the convention will be held the last week in September or the first of October. It is well understood that the party lead-

ers do not favor a continuance of the radi-cal policy of the last few years relative to the silver question, and the platform will be so framed as to try to attract the voters who have been alienated from the party since 1896. It was felt, however, that this matter and other questions connected with the organization of the convention and the lines upon which the campaign should be conducted would better be left for discussion to the meeting of the State Committee to be called in about ten days.

TALK OF AN ANTI-QUAY TICKET. Pennsylvania Independent Republicans

Start Movement for a Convention. HARRISBURG, Pa., Aug. 22.—Another Republican State Convention is to be held in Pennsylvania, if rumor be true. It was said to-day by men well informed that on Monday next, or possibly this week, a call would be issued for an independent Republican State Convention, to be held at Harrisburg within a month or so for the purpose of nominating an entire State ticket and forming an organization to fight the regular Republican State ticket. It is also said that petitions have been circulated in every county in the State for signers to the call for the convention.

The last Independent Republican State Convention held in this State was that of 1882, in Philadelphia, which nominated John Stewart, of Franklin, for Governor. Stewart succeeded in polling enough votes to prevent the election of James A. Beaver, the Republican nominee. No names have been mentioned in connection with the movement this year.

TO HUNT TITLES AND CRESTS. College of Heraldry" Incorporated to Find Genealogies for Clients.

ALBANY, Aug. 22. The College of Heraldry in America, with principal office in New York city, has been incorporated, with a capital \$5,000, to conduct genealogical researches for members and clients of the society for the purpose of establishing rights to coats of arms and crests. The directors are Richard Wilberforce of Philadelphia, Henry W. Knight and George C. Reuwes, of New York city and Chauncey Brown of Brooklyn.

One of the incorporators of the concern said yesterday that the charter had been obtained rather more easily than he thought would be possible because of the use of the term college; there have been so many unpleasant comments made recently about unpleasant comments made recently about irregular papers issued by so-called colleges and universities. Now that the charter has been secured, however, the work will go on and the college will begin to print its own stationery. So far, there has been no expressed intention to adopt fanciful costumes for the members of the college after the quaint and grotesque fashion obtaining in the original college in London. But not all the plans are complete.

The work of the society will be the tracing of genealogies, the verifying of thos already traced, and the recording of such genealogies as have been found withou haw The recording of the genealogie is the part of the work of the college of is the part of the work of the college at which the incorporators lay especial stress. Two sets of records will be kept and one will be stowed away in a fireproof vault. The other will be kept in the safe which will be the home of the college. The promoters of the plan say that they have seen it stated in English magazine devoted to genealogies that there are probably more persons of noble lineage in the United States than there are in England it is of interest and of importance to some ineage is The scorery intends to keep a record of all applicants who come to it. No a harmonizing issue, either, for the financial influences stand behind the trusts as solidly as they do behind the banks. The New York Sun is already declaring that free silver would do but little damage compared with the widespread demoralization which would be produced by effective anti-trust legislation. The Senator is anxious to secure it, but he will find that there can be no harmony without the surrender of every essential principle of Democracy. The only way to harmonize with the reorganizers is to allow them to control the organization and write a Republican platform. Perhaps they might allow him to write the platform if they are permitted to select a candidate who will disregard the platform as Mr. Cleveland did."

"While there is no evidence yet that we have the kind of mosquitees here which transmit the yellow fever germs, yet in view of the discoveries just made we shall in all future cases of yellow fever see that the patients are completely enclosed in netting and that no way is left open for even one of our mosquitees to get to them.

netting and that no way is left open for even one of our mosquitoes to get to them. "We have never had here so far, it should be remembered, a secondary case of yellow fever, that is, one that has been transmitted, to a person here from one who has developed the fever in a yellow fever country. That may be due to the fact that the right kind of a mosquito does not come here or it may be due to our climatic conditions or to the fact that we are outside of the terri-tory where yellow fever develops.
